**LinkedIn** Learning

LinkedIn Learning with LTI 1.3 + LTI Advantage

Streamline course-building and manage student outcomes with Linkedin Learning content in your LMS

## Use our world-class library to build your course curriculum:

- 17,500+ expertly-produced courses across business, creative, and technical categories

- 2,000 courses with Continuing Education Credits

- 60 new courses added every week

- 7 Languages: Course libraries include English, French, German, Japanese, Mandarin, Portuguese, Spanish
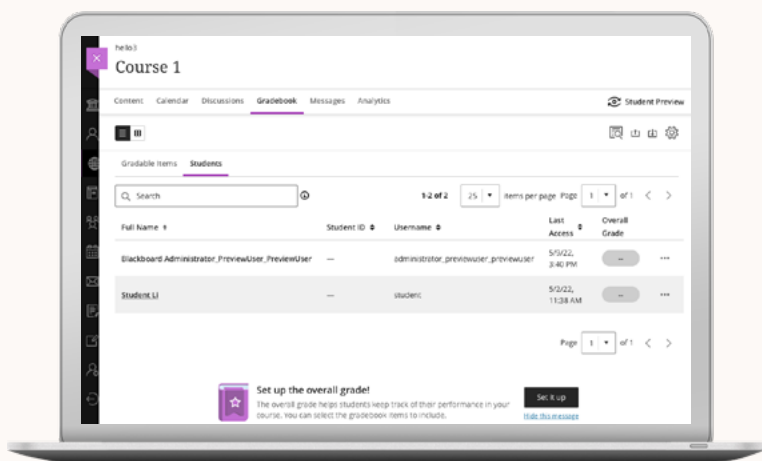

1 **Search, preview and filter in a rich course view with ease:** Discover LinkedIn Learning content easily within your LMS and add previously used Linkedin Learning content to your course curriculum

2 **Deep-link and embed content:** Seamlessly add up to date, relevant Linkedin Learning content to your curriculum

3 **Track student progress:** Get visibility into students who have completed course content

4 **Sync course progress with the gradebook integration:** Sync grades, course completions and other course details into your LMS platform's gradebook.

Create a rich learning experience where students can:

- Preview the course title, thumbnail, and description in your LMS

- Easily access LinkedIn Learning content from your LMS

- Leverage a cost-effective course material option which aligns with Zero Textbook Cost initiatives
